DAMAGE SUIT GOES TO JURY

The damage suit of Merlin Stephens, a small boy, against the Ogden Rapid Transit company, was concluded this afternoon and the case submitted to the jury. By his guardian, the youngster sued for damages in the sum of \$25,000, the defendant company not denying the liability. The only question for the jury to determine will be the amount of damages.

The testimony showed that the boy was injured in the street car collision at the mouth of Ogden canyon, July 4, 1913, from which resulted the shortening of his left leg about 3-4 of an inch and the drum of his ear was ruptured to the point that his hearing was reduced about 25 per cent.

Herman Johnson, 17-year-old son of Jonathan Johnson, 2939 Pingree avenue, had his right hand crushed in a press at the Ashton Firebrick and Tile plant on Jefferson avenue yesterday. The injury was so severe that the hand was amputated when the boy was removed to the Dee hospital. The entire hand, up to the wrist, was taken off by the surgeons.

The young man was operating a brick press and accidentally placed his hand in the heavy machinery as the jaws were closing.

The patient's condition was favorable this morning, but the healing process will confine the boy to the hospital for some time.

The steamship company is also reappointing its agents throughout the country and will be represented in Ogden by Paul Beemer and R. R. Goodman of the U. P. office.

THREE BOYS CAUGHT AFTER TAKING AN AUTO

Alleged to have taken the automobile of John Hammer, without the permission of the owner, Vivian Gibson, Floyd Rex and Clinton Rapp were taken into custody at Brigham City at 12:30 o'clock this morning, by Deputy Sheriff John Olson of Boxelder county. The car was recovered at the same time, the boys having driven it from Ogden.

Mr. Hammer reported the loss of the automobile to the police about 9:30 o'clock and, shortly after the report was received, Detective Robert Burk said that he had seen the car being driven north on Washington avenue at a high rate of speed. He had taken the precaution to note its number, so as to have the driver called in court today on a charge of speeding and passing a street car while taking on passengers.

Officers Hutchins, Naylin and Wiggins started in pursuit, from Ogden, in the police automobile. They continued the chase to Brigham City, and brought the three boys back to Ogden, where they were placed in the city jail, pending the filing of a charge against them.

To the police, young Gibson, who was in Mr. Hammer's employ as a chauffeur, stated that he went to his employer's home last night to secure permission to use the automobile. Mr. Hammer was not at home, he said, and he took the car, thinking it would be all right.

OGDEN HIGH SCHOOL TO PARTICIPATE IN STATE AFFAIR

A special student body assembly was held at the Ogden high school this afternoon, in connection with the making of announcements concerning State high school day, Friday, May 12.

The official celebration of the day will be staged at the University of Utah, where the high school students, particularly the Junior classes, will be initiated into the opportunities presented at the state school for furthering their education.

In addition to the inspection of the university buildings and grounds, the annual state high school field and track meet will be held.

The local students are particularly interested in the track meet and, judging from the enthusiasm manifested at the assembly today, the "Orange and Black" track and field team will be well supported by rooters.

The high school band will be in hand to lead in the demonstration. Director Marcelus Smith of the high school music department has also arranged for the girls' stringed orchestra, which has been featured in several musicales this season, to make the trip to Salt Lake and participate in the program which will close the day's celebration.

It was also announced at the assembly that the baseball game between the Ogden high school and Waseda, Japan, high school teams, scheduled for tomorrow, had been called off, due to the late arrival of the Japanese players at Salt Lake.

The calling off of the game was much regretted by the local nine, as it had high hopes of annexing the silver cup put up by a local Japanese firm. It is probable, however, that the boys will engage in a contest with a local Japanese team for the cup.

Everything possible was done by Coach Lon Romney of the high school, to get a game with the Waseda boys, but the latter, being due to reach Chicago early next week and having games to play in larger towns en route, could not stage a game in Ogden.

In the district court has been filed a petition for probate of the will, and for letters testamentary in the matter of the estate of the late Dr. C. F. Osgood who was killed by Heber Burch, May 2, the petitioner being a brother, Dr. F. C. Osgood.

The petition relates that Dr. Osgood left a will which named the petitioner as executor, but neither the date of the will nor the valuation of the estate is given in the petition. The widow, Mrs. Tilla Dale Osgood, of Jacksonville, Illinois, and a 11-year-old daughter, Alice Dale Osgood, of Idaho Falls, are named as the only heirs. The names of the father and mother, Mr. and Mrs. S. P. Osgood of Quincy, Illinois, are given, but not as heirs.

Dr. F. C. Osgood has also petitioned the court to issue letters of guardianship to Walter N. Cleveland of this city for Mrs. Osgood, who is alleged to be incompetent and a patient at the Mapleton Sanitarium of Jacksonville, Illinois. The petition avers that she is forty-one years of age and is a beneficiary in a life insurance policy with the New York Life Insurance company in the sum of \$3000.

Both petitions have been set for hearing in Judge Nathan J. Harris' division of the district court, May 22.

The will has been placed on deposit in the county clerk's office, but will not be filed with other papers connected with the administration of the estate until a later date.

The second section will carry the troops, including the regimental headquarters staff, Fourteenth Infantry band, machine gun company and companies E, F, G, and H. Getting Ready for Guards. Columbus, N. M., May 10.—Renewed activity in almost every department of the expeditionary base was apparent here today. Men were being sent forward to the field, preparations were being made for the mobilization here of the New Mexico national guard and supply motor truck trains, carrying ammunition, supplies and equipment were being sent to the front.

Last night a heavier guard than is customary was thrown about the military reservation, gasoline supply tanks and store depots being guarded closely. With no aeroplanes in the field, tests of new planes were being hurried by army aviators.

The first companies of the national guardmen are expected to arrive in Columbus late in the week. Major W. R. Sample, base commander, detailed several regular army officers to muster the troops into the United States service immediately on arrival. This was said, however, to be merely a precautionary measure in the event it should become necessary to send the men over the state line.

About one hundred "casuals" or soldiers who have become detached from their commands, were ordered today to join their organizations. One hundred and fifty men of the Sixth cavalry, who arrived recently to obtain remounts were sent back to the field by motor truck, the animals being left here.

Unofficial reports from the field indicated tension among the detachments along the line of communication similar to that which seemed manifest here. At military headquarters, however, it was stated that there had been no large new movements of troops in the expeditionary command.

General Pershing and his staff at San Antonio, Chihuahua, continued to keep in touch with the Mexican situation. A number of messages and all available news is being transmitted to him by wireless.

CHINA FACING GRAVE PROBLEM

Situation Grows Increasingly Critical—Yuan Shi Kai May Be Unable to Hold Position.

Tokio, April 13.—Correspondence of the Associated Press.—The Chinese question is increasingly the topic of the day in Japan. The visitors returning from Peking report that interest there is centered as much in what Japan will do as in what the revolutionists are accomplishing in the south. The refusal of Japan to hand over the salt revenue surplus to the government of Yuan Shi Kai, and the exodus of frightened Chinese from Peking are considered here as evidences of the growing tension and danger of the Chinese situation.

With Japanese officials constantly voicing their intention of non-interference in Chinese domestic affairs the opinion is heard among representative foreigners and even diplomats that the movement against Yuan Shi Kai

has gone so far that there is even a probability that he will be unable to hold his office as president.

Political Groups Busy. The political groups hostile to the present Japanese government are not inactive. Takashi Hara, leader of the Seiyukai party has recently severely criticized the government's Chinese policy, believing it responsible for the present estrangement between the people of Japan and China. He urged the importance of cultivating relations of utmost cordiality and mutual confidence between the two nations and declared that Japan should scrupulously abstain from any policy of interference with the internal affairs of her neighbor. The opposition leader concluded his speech by insisting that the only way out of the present problem of Japan's relations with China was for Premier Count Okuma and his fellow ministers to get out of office. The answer of the government to this is that it has no intention of interfering in China.

Japan to Take a Hand. Insistent reports in the Japanese press that Russia would soon conclude an agreement with Japan recognizing Japan's special position in China have created the impression that the entente allies, in consideration of Japan's aid in the present war, may be disposed to cede some of their own interests in China without in any way encroaching upon the integrity of that country. There are no indications at present, however, that the entente allies have granted Japan a free hand in dealing with China, as has been reported in some quarters. The peace policy of the entente powers is believed here to be very far-reaching and it is thought that at the conclusion of the present war an effort will be made to eliminate China and the Far East generally as a seat of possible future trouble.
